Mr. Chen,

When we last spoke, I told you that I could be calling you today to discuss this in a little more detail. Unfortunately, that will not be possible today. I will reach out and coordinate with you in the near future regarding a different date.

Thanks,

**Carlos Moreno**

**Subject:** Produced Water Discharge

Mr. Chen,

I met you when I was working for BP, but since then have moved on and work as an attorney. I left you a voicemail about one of our clients yesterday. I am helping Petrobras with discharge issues related to their FPSO. They are looking to start discharging Produced Water (currently it is being shipped onshore). They would like to discuss that with you beforehand to give you the opportunity to raise any concerns. Although any issues with this particular project are mostly technical as opposed to legal, I offered to facilitate the conversation given my prior experience. Please give me a call when you get a chance or let me know a date/time when I can reach you. I want to discuss your preference on schedule, people involved, and method of information exchange.

Regards,

**Carlos Moreno**
